### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

**DETAILED ACTION**

***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-3,6, and 9-12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

- The following phrases in the claims are vague, indefinite, and/or awkwardly and confusingly worded:
  - o "said device . . . elements"(claim 1, lines 4-6). Does the drive system or the flats include the guide wheels and cogged belts? Are the guide wheels or the cogged belts equipped with the scrapping or cleaning elements?
  - o "one . . . guides"(claim 1, lines 5-7). Applicant does not specifically recite the cooperation of the scraping or cleaning elements with the guides, so it would appear that the scraping or cleaning elements could contact any part of the structure. This phrase is awkwardly written.
  - o "at an angle . . . 90°"(claim 3, lines 5 and 6). The angle is measured relative to what?

Art Unit: 3724

- o "the scraping . . . belts"(claim 11, lines 3-5). How are the scraping or cleaning elements set underneath the belts if the belts are rotating?"
- o "said enlarged . . . profile"(claim 11, lines 6-9). This phrase is vague, indefinite and awkwardly and confusingly worded.
- o "said enlarged . . . portions"(claim 11, lines 11 and 12). The enlarged portions are set apart by a series of lower portions of what?
- The following phrases in the claims lack proper antecedent basis since they were not properly earlier referred to:
  - o "the bottom face"(claim 2, line 4; claim 9, lines 4 and 5). How can the cogged belt have a bottom face if it is rotating? Doesn't the bottom face become the top face sometimes?
  - o "the side . . . portions"(claim 2, lines 8 and 9). Enlarged portions of what, and the side of what?
  - o "the carding drum"(claim 3, line 8).
  - o "the blade"(claim 6, line 3). The "blade" should be -- blades--.
  - o "the toothed driving"(claim 11, line 9).
  - o "return-idler wheels"(claim 11, line 10).
  - o "the toothing of guide wheels"(claim 12, line 10).

***Claim Rejections - 35 USC § 102***

Art Unit: 3724

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Verzilli et al(4,759,102).

- Applicants broad recitation of guide wheels and cogged belts, which are equipped with one or more scraping or cleaning elements that elimination the accumulation of foreign bodies from the guides, on which resting elements of the flats are moved is met by Verzilli et al(4,759,102), since the scraping or cleaning elements 16 do not actually have to contact the guides.

#### ***Allowable Subject Matter***

5. Claims 2,3,6, and 9-12 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

#### ***Conclusion***

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

- The cited prior art discloses carding machines.

Art Unit: 3724

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

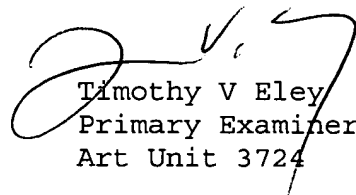

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Timothy V. Eley whose telephone number is 571-272-4506. The examiner can normally be reached on M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Allan N. Shoap can be reached on 571-272-4514. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
